

Complete Social Emotional Learning Package for Distance & Hybrid Learning

SOCIAL-EMOTIONAL LEARNING

- Augmented Reality to help students with Autism, ADHD, or other social-emotional challenges
- Encourages key social skills like turn-taking, staying on task, controlling anxiety, verbalizing, and understanding how a peer or loved one may be feeling.
- Support your students to cope with changes, transitions, and anxiety brought on by COVID and a new learning environment.

DISTANCE, HYBRID, AND IN-CLASS MODELS

- 1:1 smart glasses
- Use the breakthrough technology of smart glasses to coach SEL skills and coping strategies in the classroom, or at a distance
- SEL implementation resources and lesson plans for teachers to use in all learning models

ENGAGING, MOTIVATING, AND EASY TO USE

- Empowered Brain smart glasses arrive setup by your Customer Success Team
- Gamified learning to engage and motivate students!
- Real-time reinforcement builds social-emotional skills and self confidence
- Easy to navigate apps
- A time-saving solution to support teachers in helping students achieve their goals!

WE ARE HERE TO SUPPORT YOU!

- Receive extensive coaching and support implementing Empowered Brain with your students
- In-person and virtual options and resources
- Additional support for families

RESEARCH AND EVIDENCE BASED

- Based on years of research and clinical testing by doctors and neuroscientists from Harvard and MIT
- Empowered Brain is in the 1% of autism apps backed by direct research
- World-leading autism app in over 10 published research papers
